## ABOUT ME

Results-driven and motivated Software Engineer with a demonstrated experience in improving software performance, testing and updating existing software, and developing new software functionalities, strong attention to detail, and ability to finish projects on time.

## SKILLS

React, Redux Toolkit, TypeScript, CSS, HTML, React Query, Material UI, React Hooks, Git Node, Express, MongoDB, MySQL, REST, Heroku

## WORK EXPERIENCES

- JUNIOR FULL STACK DEVELOPER

May 2022 - up to present | Self-employed/Freelancer

I collect backend on express with mysql database and front on react with state manager Redux Toolkit, MUI v5 is used for style.

- TOOLS ADMIN

September 2021 - up to present | SoftConstruct

I am engaged in process automation in Jira, writing scripts using plugins to complement the capabilities of Jira and automate as many actions as possible, also a create unique workflows for our departments , making approvals systems with group sign off plugins merging with automation , understand rest api, making requests to Jira api's for getting more data, create filters with jql, in docs i do the same with one difference there we have script runner i use that too

- MAJID AL FUTTAIM

March 2021 - September 2021 | IT Specialist

Monitor servers and computers, fix any problems.
